

Perfume Featuring Pdubby

(CHORUS)

Every single time I'm in your presence
Your beauty, your essence
I'm greeted with presents
I told you that I want you
That smile and your perfume
Got me on time like a curfew
Remember that past that you cried for
Well that was the past, here's a new door

I let you soak into my skin like lotion
I want you close like a tattoo on my chest
And I will give you my best
If I had nothing, I would give you the rest
Because that's just who I am
I smell Chanel, so I can tell
You're in the room
It might be too soon
But I want you, I want you
So I just keep on singin'

(CHORUS)

Every single time I'm in your presence
Your beauty, your essence
I'm greeted with presents
I told you that I want you
That smile and your perfume
Got me on time like a curfew
Remember that past that you cried for

Well that was the past, here's a new door

You let me soak into your skin like lotion
You want me close like a tattoo on your chest
And you will give me your best
If you had nothing, you would give me the rest
Because that's just who you are
I smell Chanel, so I can tell
You entered the room
It's not too soon to say
That I want you, I want you
So just keep on singin'

(CHORUS)

Every single time I'm in your presence
Your beauty, your essence
I'm greeted with presents
I told you that I want you
That smile and your perfume

A Million Dinners

(CHORUS)

I would sit through a million dinners
If it meant I got to sit beside you
I would lay in an empty room
If it meant I got to lay beside you
And I know that I can't, I can't do a lot
But I will do what I can
I will do what I can
To make you love me

In the hour of darkness I would gladly close my eyes
And dream of you, you holding me real tight
If my mind couldn't help but wander, I'd know exactly what to do
I would paint the inside of my eyelids with a picture of me and you

(CHORUS)

I would sit through a million dinners
If it meant I got to sit beside you
I would lay in an empty room
If it meant I got to lay beside you
And I know that I can't, I can't do a lot
But I will do what I can
I will do what I can
To make you love me

If I could dance I would waltz to the beat of your heart
I would make one wish upon your shooting star
That we would be together, and we would last forever
And I would do my best to prove that

I could be your Bermuda weather

(CHORUS)

I would sit through a million dinners

If it meant I got to sit beside you

I would lay in an empty room

If it meant I got to lay beside you

And I know that I can't, I can't do a lot

But I will do what I can

I will do what I can

To make you love me

All I Need Part 1

When I'm runnin' on fumes, and all I've got is an empty tank

I just fill up on your love and it feels better than ten grand in the bank

And when that bank won't lend me anymore

I knock knock knock at your door

And ask you to guide me ashore

'Cause it's been a long time since I've done something for you

You always do so much for me

I plan to pay you back

Just you wait and see, wait and see

(CHORUS)

I don't need anyone else but you

I don't

I don't need anyone else but you

I don't

I'm always hot, you're always cold

I'm always yes, you're always no
You're always fast, I'm always slow
You ask what happened, I say I don't know
'Cause honestly I would bleed for yah
And honestly I would heal for yah
That's what you say when you look at me
You tell me we'll make it like everyday
And honestly I believe you
Cross my heart, yeah I swear I do
'Cause like a Drake song we're far from over
And like an open wound we're far from closure
Let time pass and heal things
I'll fly back on broken wings
'Cause baby that's what I would do
Even with closed eyes I would still find you

(CHORUS)

I don't need anyone else but you
I don't
(you're all I need, you're all I need, you're all I need, you're all I need)
I don't need anyone else but you
I don't
(you're all I need, you're all I need)

All I Need Part 2

(CHORUS)

I don't need anyone else
But you
I don't need anyone else
But you

I don't want
Anyone else but you
And I think all of the hard work
Could come through, if you

Hold on tight
Until the moment is right
Hold on tight
Until the moment is right

(CHORUS)

I don't need anyone else
But you
I don't need anyone else
But you

If you fall
I will pick you back up
And I will stand tall
If you're short on your luck, so please

Hold on tight
Until the moment is right
Hold on tight
Until the moment is right

(CHORUS)

I don't need anyone else
But you
I don't need anyone else
But you

Say I'm Enough

I know that I am young
And probably foolish
And I don't have the right to
Ask you to do this
But I need you to express
What I represent
Soothe my soul and pump my heart
Scream it at the top of your lungs

I know that you could find better
'Cause I know I won't be here forever

(CHORUS)

I just want you to say that I'm enough
I just want you to say that I'm enough
I just want you to say that I'm enough
I just want you to say that I'm enough
I just want you to say that I'm enough
I just want you to say that I'm enough
I know that you could find better
'Cause I know I won't be here forever

(CHORUS)

I just want you to say that I'm enough, for you
I just want you to say that I'm enough, for you
I just want you to say that I'm enough
(I know that you could find better)
I just want you to say that I'm enough
('cause I know I won't be here forever)

(CHORUS)

I just want you to say that I'm enough, for you
I just want you to say that I'm enough, for you
I just want you to say that I'm enough, for you

Love Me

Love me, Love me
Touch me, touch me
Love me, Love me
Touch me

(CHORUS)

Love me, Love me, I want you to love me
Because I can't, because I can't love myself
Touch me, touch me, I want you to touch me
Because I can't, because I can't touch myself

Holding my breath with my face turning red
I can't say anymore how much it's you I adore
I want to feel something I never have
If I give it to you then will you help me stand

Love me hard and love me long
Can you take control, can you love me strong
Love me hard and love me long, can you take control

(CHORUS)

Love me, Love me, I want you to love me
Because I can't, because I can't love myself

Touch me, touch me, I want you to touch me
Because I can't, because I can't touch myself

I have no shame and there's no one to blame
But myself for these urges that I cannot contain
Do you taste the sweat all over my skin
Your sweet ecstasy takes away all of the pain

Love me hard and love me long
Can you take control, can you love me strong
Love me hard and love me long, can you take control

Reign over me

Baby

Reign over me

My baby

(CHORUS)

Love me, Love me, I want you to love me
Because I can't, because I can't love myself
Touch me, touch me, I want you to touch me
Because I can't, because I can't touch myself

Love me, Love me, I want you to love me
Because I can't, because I can't love myself
Touch me, touch me, I want you to touch me
Because I can't, because I can't touch myself

NEVER BE THE SAME featuring Rose Lamothe

If you go, if you don't stay

If you go, if you don't stay
If you go, if you don't stay
If you go, if you don't stay

What do I have to say
To make you, make you stay
What do I have to do
Baby to prove to you
That you're the one I want and need
That we are fate, we are destiny
When I drift off you're my ship at sea
The salt that helps me breathe

A second too late and the world changes
We gotta try, we can survive
A second too late and the world changes
We gotta try, we will survive

(CHORUS)

If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same

I don't know if I can stay
No matter, no matter what you say
I don't think this is the right place
Everything just feels too safe

You say that I'm all you want and need
That we are fate, we are destiny
I know you love me, this even I can see
So baby I'll try to believe

A second too late and the world changes
We gotta try, we can survive
A second too late and the world changes
We gotta try, we will survive

(CHORUS)

If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same

I want you, do you want me still
I want you, do you want me too
I want you, do you want me still
I want you, do you want me too
I want you, do you want me still
I want you, do you want me too
I want you, do you want me still
I want you, do you want me too

(CHORUS)

If you go, if you don't stay
If you leave me, I will never be the same

If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same
If you go, if you don't stay
If you leave me, I will never be the same

Where Are You

(CHORUS)

Where did you go
Where are you now
Are you there, are you where
Are you out there
Where did you go
Where are you now
Are you there, are you where
Are you out there

We used to be friends
Now that has ended
What happened, what happened
I just wanna know
My heart was broken
No words were spoken
I was hit, I was hit
So I laid down

(CHORUS)

Where did you go
Where are you now

Are you there, are you where
Are you out there
Where did you go
Where are you now
Are you there, are you where
Are you out there

Hit me with a left, hit me with a right
I blacked out but I continued to fight
Some things were said but that doesn't make it right
To turn your back and lose sight
Of the fact we were one in the same
I was a client that you couldn't retain
Here one day, gone the next
All I'm trying to be is better than the rest, uh

(CHORUS)

Where did you go
Where are you now
Are you there, are you where
Are you out there
Where did you go
Where are you now
Are you there, are you where
Are you out there

My Unicorn

(CHORUS)

You are my unicorn
You're a myth but I know you exist

We have been here before
In a place different than this
But I still believe
Believe in your existence
Will you come running
My Unicorn

Why do I write these love songs
I guess you're always on my mind
But who are you, where are you
Have I seen your face
In a place, much more crowded than this
When I was asleep did you send me a kiss
Covered in potential, it's essential
That we're on the same page
For me it's all mental, but detrimental
That we're at the same stage
So don't leave if you wanna stay
I'm a rookie but I can play your game

(CHORUS)

You are my unicorn
You're a myth but I know you exist
We have been here before
In a place different than this
But I still believe
Believe in your existence
Will you come running
My Unicorn

Give me a chance at romance
I will surprise you

I only wanna slow dance, and hold hands
And uncover the truth
Is that a whisper I hear in my ear
I smell perfume, so I know you are near
How long 'til I reach you, and teach you
That I've got issues
If I get to meet you, I will greet you
And my words will remind you
That I have a lot, a lot to offer
Have faith in the unknown if you're unsure

(CHORUS)

You are my unicorn
You're a myth but I know you exist
We have been here before
In a place different than this
But I still believe
Believe in your existence
Will you come running
My Unicorn

LOVE WILL LAST featuring Moka Only

Whoah-oh-oh
Whoah-oh-oh
Whoah-oh-oh
Oh-whoah-oh-whoah

Is it right
That I feel pain
That I feel lost

That I feel shame
For the things
That make me who I am
Please understand
I'm just doin' what I can
Rivers run
The forrest grows
Birds do fly
The wind does blow
And I can try
To keep a smile
To hop on trend
To keep in style

Don't try to tell me that love doesn't stay
Don't try to tell me love just runs away, 'cause

(CHORUS)

Love will last, love will stay
Love will grab you when you try to pull away
Love will last, love will stay
Love will grab you when you try to pull away

Can I hold on
Until I find
That type of girl
The one who's right
Who isn't wrong
Who makes me strong
That's all I've ever wanted
All along
The sky is blue

The clouds are white
My heart does pound
I think I might
Believe in love
Believe in fate
Quicken the pace
'Cause I cannot wait

Don't try to tell me that love doesn't stay
Don't try to tell me love just runs away, 'cause

(CHORUS)

Love will last, love will stay
Love will grab you when you try to pull away
Love will last, love will stay
Love will grab you when you try to pull away

Yeah, big tracks, beats off the rack
Love is the ultimate, no turning back
In fact it's never too late to attach
Yourself to a new mindframe 'cause we have
Chance after chance, so when you gonna grab, grab, grab
It's been many mistakes and a half
Stakes is high, yeah we well aware of that
I'm trying to be the cat, fly like a pterodactyl
Inside of my castle, my temple
My body, my soul and my mind, and the vessel is the pencil
Love can't sit still it's intensive
Blocking out negative thoughts for the mental
Vibrations are sky high facing

The midday sun, staying wide eyed, tasting
All the fruits of my labor, no wasting
Time or the effort, it's a big life craving

Don't try to tell me that love doesn't stay
Don't try to tell me love just runs away, 'cause

(CHORUS)

Love will last, love will stay
Love will grab you when you try to pull away
Love will last, love will stay
Love will grab you when you try to pull away

Dream Clouds

I see those city lights
And they make me feel alright
'Cause I have been here before
And I have opened many doors
But they all seem to lead to darkness
Feel like I'm jumping without a harness
But that's ok, you will catch me
At least in my mind that's what I see

(CHORUS)

Every time I'm comin' home
You're always there to let me know
That you will be right by my side
You always help me come alive
Every time I'm comin' home

(coming home)
You're always there to let me know
(coming home)
That you will be right by my side
(coming home)
You always help me come alive

Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me go
I don't know how long
But eventually I will be gone
I've done a lot of right
But also done some wrong

And I'm just tryin' to be better
And I'm just tryin' to pull together
Tryin' to be genuine like leather
Tryin' to keep my heart off of the stretcher
But it doesn't always seem to work
Afraid of who I'm gonna hurt
Tryin' to make sure things are okay
Before I'm dead and gone away

(CHORUS)
Every time I'm comin' home
You're always there to let me know

That you will be right by my side
You always help me come alive
Every time I'm comin' home
(coming home)
You're always there to let me know
(coming home)
That you will be right by my side
(coming home)
You always help me come alive

Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me
Come, come on
Don't let me, don't let me go
I don't know how long
But eventually I will be gone
I've done a lot of right
But also done some wrong
